Materials/ parts supplied by Metro Industries do not exceed the specified threshold limits noted below. All threshold limit values are shown in PPM (part per million) by weight per homogeneous material. The formula for ppm calculation is $1,000,000 \times \text{mass substance} / \text{mass homogeneous material}$.

Substances	Threshold Intentionally added	Threshold Trace Occurrence	Reference
Asbestos, asbestos compounds	0	-	Directive 1999/77/EC
Chlorofluorocarbons and halons (Class I and II Ozone depleting Chemicals)	0	-	Regulation 2037/2000
Halogenated dioxins and furans	0	-	Germany
Mercury and mercury compounds	0	1000	Directive 2002/95/EC Directive 2000/53/EC

Polybrominated biphenyls (PBBs) and derivatives including biphenyl ethers (PBDEs)	0	1000	Directive 2002/95/EC
			Directive 2003/11/EC
Polychlorobiphenyls and directives (PCBs)	0	-	Directive 85/467/EEC
Polychloroterphenyls and directives (PCTs)	0	-	Directive 85/467/EEC
Ethylene Glycol Monomethyl Ether and its acetate	0	5	California Prop 65
Ethylene Glycol Monoethyl Ether and its acetate	0	5	California Prop 65
Cadmium and cadmium compounds (plastic, rubber, ink, pigment, paint)	0	5	Asian Requirements
Cadmium and cadmium compounds (all other applications)	0	100	Directive 2002/95/EC
			Directive 2000/53/EC
Chromium VI (except packaging below)	0	1000	Directive 2002/95/EC
			Directive 2000/53/EC
Lead and lead compounds (except as in cable and packaging below)	0	1000	Directive 2002/95/EC
			Directive 2000/53/EC
Lead and Lead compounds in plastics, rubbers, inks, paints	0	100	Asian requirements
			California Prop 65 for cables
Azo Dyes	0	30	Directive 2002/61/EC
Lead, Cadmium, Chrome VI, and Mercury in Packaging Materials	0	100 combined	Directive 94/62/EEC
Tributyl tin (TBT) and Triphenyl tin (TPT) compounds	0	-	Asian Requirements
Short Chain Chlorinated Paraffins (C10-13, Cl>50%)	0	-	Directive 2002/45/EC
